

Dear Parents,

We are in the process of planning for next year and would like to remind parents about our Chromebook Parent Purchase Program. This program is available to all students in Grades 1-12. Students are also encouraged to bring their own device. If parents are considering purchasing a device for their child we do suggest purchasing a Chromebook.

Students in Grades 9-12 will no longer have the opportunity to sign out Chromebooks in the High School on a daily basis. It is unfortunate that we can no longer provide this service but due to the lack of respect and care of the Chromebooks the financial costs to repair or replace them has become too much for our budget to support. Students in Grade 9-12 will have a few options available to them next year:

- 1 - bring their own device (laptop, iPad, etc)
- 2 - buy a Chromebook from the Parent Purchase Program
- 3 - rent one of the limited numbers of Chromebooks we have left for the year.
(Rental information will be provided in the fall)

The link below contains information about the Parent Purchase Program.

We suggest for parents interested using the Parent Purchase Program that they place their Chromebook order early as the delivery may take a couple of weeks depending on available stock. Chromebooks ordered are shipped to Wolf Creek Public School's Division Office. Wolf Creek Schools Tech Services staff will then configure each device so that the student's Chromebook is ready to connect to our wireless network and work within our Google Apps for Education environment. Once finished, Chromebooks will be delivered to the student's school.

If you are a parent that has a child entering grades 1-12 and is interested in the Parent Purchase Program or have any questions, please contact the school.
